Dear Sir/Madam,

We remain pleasantly surprised that our paper catalogue is still hugely popular in this fast-paced, digital era. All the more reason to study it carefully during the coming season, to ensure that it remains a valuable source of information alongside our website.

Once again, the following pages therefore feature a visual overview of the latest, most attractive or commercially appealing highlights from our product range.

On the last inside page, we have created extra space for information about packaging and transport options including the associated costs.

As usual, our stock list for the 2017-2018 season has been inserted separately. During the season, you can also request an updated stock list at any time.

**WEBSITE**
The updated stock list can also be found on our website. This year, we are putting even more energy into our website to keep it as up-to-date and informative as possible and tell you all about the latest news.

**STOCK LIST and ONLINE ORDERING**
Our stock list features over 4 million plants. It contains our full range complete with quantities, sizes and any new varieties. You can order online via our website: www.hoogenraadplant.nl

Our range includes more than 3,000 products, over 1,500 of which we grow ourselves.

**AREA**
We recently set up a new 2 hectare container field. Hoogenraad Handelskwekerijen now has over 13 hectares of container growing area, including 3.5 hectares under glass.

**RANGE**
Our range largely consists of planting stock for growers, bred using perfect propagation materials from our own stock nurseries. All our plants are covered by the ‘Good Plants’ quality mark, a unique guarantee of quality. We are so convinced of our ‘Good Plants’ quality that this year, the logo graces the front of this catalogue.

**NEW**
Every year, we bring several new products onto the market. This year, we are proud to introduce varieties such as Rubus idaeus ‘Yummy’®, Thuja occidentalis ‘Sunny Smaragd’®, Physocarpus opulifolius ‘Little Greeny’®, Vaccinium corymbosum ‘Flamingo’® and Weigela ‘All Summer Peach’®. Photos of these plants can be found further on in the catalogue.

Last year’s expansion of the range of bare-root perennials was a huge success. This year, we have been able to expand our range still further.

**ONE-STOP-SHOP**
Hoogenraad Handelskwekerijen provides a complete range. Can’t see the plant you are looking for on our list? No problem, you can just order it! We will then seek out the best offer for you. In these cases, we work with specially selected colleagues and can almost always deliver everything you order. We keep our delivery agreements, all over the world.

**INTERNATIONAL**
Hoogenraad Handelskwekerijen operates internationally and exports to numerous countries in Europe and Asia. You are very welcome to visit our company in the Netherlands. If you inform us of your visit in advance, we will be able to assist you and give you a tour in your own language.

We look forward to being of service once again and wish you a very successful sales year. Hoogenraad Handelskwekerijen team.
